

Ali Abdullateef

FULL-STACK WEB DEVELOPER

Experienced software development professional with expertise in developing and designing web applications using HTML, CSS, JavaScript, Node.js, and React. Proficient in creating and implementing complex backend systems, web services, and databases. Demonstrates a natural talent for quickly and resourcefully solving problems, complemented by strong research skills and the ability to independently devise effective solutions.

Work History

2021-08 -
Current

Full Stack Web Developer

Plural Code, Lagos, Nigeria (Remote)

- Developed app solutions using JavaScript, NoSQL (MongoDB), React, Node.js, and HTML, with a foundational understanding of SQL.
- Increased website performance by optimizing front-end and back-end code for faster loading times.
- Developed functional databases, applications and servers to support websites on back-end.
- Applied responsive design principles to ensure consistent display and functionality across a wide range of devices, including mobile phones, tablets, and desktop computers.
- Created easy-to-use APIs for third-party integrations, enhancing the functionality of existing applications without compromising on performance or security.
- Reviewed code, debugged problems, and corrected issues.
- Worked with back-end developers to design APIs.
- Developed user-friendly web forms with validation and error handling.
- Conceived and built optimized landing pages in HTML and CSS for integration and cross-browser compatibility.
- Optimized web applications for speed, scalability and security.
